Unit	
Request Description	Request for professional information technology services and server software licenses to support an upgrade to the TDEM infrastructure to support 20-0003 nCoV 2020 incident. This request has an attached detailed budgetary quote that is associated with TxDIR Cooperative Contract: DIR-TSO-3446, and 2) Educational Administrative Use Pricing for item #157568 on page 3 of the quote.
Attachment	
Justification/Purpose of Request	TDEM is currently utilizing the Texas Department of Public Safety geospatial infrastructure, which is inadequate to support the requirements for the 20-0003 nCoV 2020 incident. This contract will provide a foundational technology infrastructure that can support this incident and provide TDEM with a means to better collaborate with DSHS and HHS for a unified work effort.
